Hollywood director and documentary film maker Aaron Russo has gone in-depth on the astounding admissions of Nick Rockefeller, who personally told him that the elite's ultimate goal was to create a microchipped population and that the war on terror was a hoax, Rockefeller having predicted an "event" that would trigger the invasions of Iraq and Afghanistan eleven months before 9/11.

Rockefeller also told Russo that his family's foundation had created and bankrolled the women's liberation movement in order to destroy the family and that population reduction was a fundamental aim of the global elite.

Russo is perhaps best known for producing *Trading Places* starring Eddie Murphy but was more recently in the spotlight for his exposé of the criminal run for profit federal reserve system, the documentary [America From Freedom to Fascism](#).

Currently undergoing more treatment in his fight against cancer, Russo made time for a sit down interview with radio host and fellow documentary film maker Alex Jones in which he dropped bombshell after bombshell on what Rockefeller had told him about the direction the world was being steered towards by the global elite.

After his popular video *Mad As Hell* was released and he began his campaign to become Governor of Nevada, Russo was noticed by Rockefeller and introduced to him by a female attorney. Seeing Russo's passion and ability to affect change, Rockefeller set about on a subtle mission to recruit Russo into the elite.

During one conversation, Rockefeller asked Russo if he was interested in joining the Council on Foreign Relations (CFR) but Russo rejected the invitation, saying he had no interest in "enslaving the people" to which Rockefeller coldly questioned why he cared about the "serfs."

"I used to say to him what's the point of all this," states Russo, "you have all the money in the world you need, you have all the power you need, what's the point, what's the end goal?" to which Rockefeller replied (paraphrasing), "The end goal is to get everybody chipped, to control the whole society, to have the bankers and the elite people control the world."

Rockefeller even assured Russo that if he joined the elite his chip would be specially marked so as to avoid undue inspection by the authorities.

Russo states that Rockefeller told him, "Eleven months before 9/11 happened there was going to be an event and out of that event we were going to invade Afghanistan to run pipelines through the Caspian sea, we were going to invade Iraq to take over the oil fields and establish a base in the Middle East, and

we'd go after Chavez in Venezuela."

Rockefeller also told Russo that he would see soldiers looking in caves in Afghanistan and Pakistan for Osama bin Laden and that there would be an "Endless war on terror where there's no real enemy and the whole thing is a giant hoax," so that "the government could take over the American people," according to Russo, who said that Rockefeller was cynically laughing and joking as he made the astounding prediction.

In a later conversation, Rockefeller asked Russo what he thought women's liberation was about. Russo's response that he thought it was about the right to work and receive equal pay as men, just as they had won the right to vote, caused Rockefeller to laughingly retort, "You're an idiot! Let me tell you what that was about, we the Rockefeller's funded that, we funded women's lib, we're the one's who got all of the newspapers and television - the Rockefeller Foundation."

Rockefeller told Russo of two primary reasons why the elite bankrolled women's lib, one because before women's lib the bankers couldn't tax half the population and two because it allowed them to get children in school at an earlier age, enabling them to be indoctrinated into accepting the state as the primary family, breaking up the traditional family model.

This revelation dovetails [previous admissions](#) on behalf of feminist pioneer Gloria Steinem (pictured) that the CIA bankrolled Ms. Magazine as part of the same agenda of breaking up traditional family models.

Rockefeller was often keen to stress his idea that "the people have to be ruled" by an elite and that one of the tools of such power was population reduction, that there were "too many people in the world," and world population numbers should be reduced by at least half.

One issue which has spiraled out of control of the elite according to Rockefeller's conversations with Russo, is the Israel-Palestine conflict, with serious thinking at one stage revolving around the bizarre notion of giving Israeli citizens one million dollars each and relocating them all in the state of Arizona.
