

I'm going to tell you about Obama's next possible attack on human life — and it may sound like it's from George Orwell's *1984*, but this is NOT fiction! Also, take a look at the two spiritual gifts I have for you as you begin to work with this news from Obama's White House.

Obama's health care program — featuring taxpayer-funded abortion and end of life counseling — is downright mild compared to what could be coming next from the White House.

Obama's fanatical support of the Freedom of Choice Act — legislation that's actually worse than *Roe v. Wade* — is almost nothing compared to the anti-life storm that could be next on Obama's agenda.

Let me give you the shocking details — **information you've probably not read anywhere else** — but first let me introduce myself ...

What I saw horrified me

My name is [Steve Mosher](#) and I'm President of the [Population Research Institute](#)—PRI for short. PRI has been successfully saving babies for over 20 years.

Like many people in the 1970s, I was unaware of the large scale death and misery caused by abortion. At the time, I was a social scientist working in the People's Republic of China. (In fact I was the very first American social scientist ever allowed to live and study in rural China.)

And what I saw in China forever opened my eyes to the reality that abortion takes an innocent human life.

The Chinese population control workers were — and still are — going door-to-door, hunting down women “illegally pregnant” with a second child. (As you may know, China enforces a “one-child-per-family” policy, sometimes even using brutal means.)

I saw these “illegally pregnant” mothers — some of them seven and eight months pregnant — forcibly subjected to abortion and sterilization.

You cannot witness even one abortion like this, and not know for certain that an innocent human life is involved.

I returned to the U.S. and wrote magazine and newspaper articles exposing the baby killings and forced sterilizations I saw in China. I converted to the Catholic Church and vowed to spend the rest of my life fighting abortion. I was blessed to meet the Founder of the Population Research Institute, Fr. Paul Marx, and became involved with his wonderful organization. In 1995, he selected me to succeed him as PRI's president. (The late Fr. Marx served as PRI's Chairman until he was called home to his heavenly reward just last month.)

PRI's baby-saving work is widely hailed by prominent Church leaders around the world. (I'll tell you who some of them are in just a minute.) Our Founder, Fr. Marx, was publicly blasted by Planned Parenthood as “Public Enemy No. 1.”

Now that I've introduced myself and the Population Research Institute, let me outline some of what we need to do.

I'm not making this up!

It's a tragedy that little attention has been given to Obama's appointment of John P. Holdren as Director of the White House Office of Science and Technology — an immensely powerful position that can influence and perhaps even dictate matters of life and death for all Americans.

You see, John Holdren — Obama's new Science Czar — is a rabid population controller of the worst sort. A Harvard professor, Holdren is co-author of a shocking book called *Human Ecology: Problems and Solutions*.

Take a look at just a few of the solutions to the population crisis endorsed by John Holdren, Obama's new Science Czar ...

- He claimed that existing equal protection laws could be used to enforce compulsory abortion in America.
- Holdren — Obama's top scientific appointee — wanted to force single mothers to give up their babies for adoption.
- He proposed that we give civil rights to inanimate objects like lakes, rivers and mountains, just as other inanimate objects like corporations and foundations already have legal rights.
- Obama's Science Czar even looked favorably on adding sterilization drugs to drinking water and food supplies.

But there's more you should know about John Holdren, Obama's Science Czar, and it's this ...

- Holdren deeply believed that global warming is caused by too many people, and the solution is whatever it takes to have fewer people, including abortion, forced sterilization and euthanasia.

As I said, that sounds like it's straight out of George Orwell's *1984*, so let me repeat myself about Obama's Science Czar — I'm not making this up!

Just how much influence does this population controller have with Obama?

Let me answer that question by telling you some more about John Holdren, Obama's Science Czar ...

Director of the White House Office of Science and Technology Policy is just one of Holdren's titles.

Obama has also appointed him Assistant to the President for Science and Technology and Co-Chair of the President's Council of Advisors on Science and Technology.

Holdren is an official member of the Executive Branch. He and Obama are both Harvard Men. And Obama's announced that he wants to restore science to its rightful place in the U.S. *This population-controller Science Czar really has Obama's ear!*

So we're going to sound the pro-life alarm!

It's a tragedy that so little attention is given to Obama's new Science Czar, John Holdren. You see, unless Holdren is put in the public spotlight, he can use his behind the scenes power to push for anti-life measures that are even worse than Obama's health care bill!

So the Population Research Institute plans to solve that problem with a very loud wake- up call to American pro-lifers ...

First, we'll produce an entire series of hard-hitting mini-documentaries and post them on the Internet where *millions* of people can learn about Obama's Science Czar and the population control nightmare he could have in store for America.

Next, we'll research, write, print and distribute a blistering exposé of John Holdren, Obama's chief scientific advisor.

Then, PRI representatives will appear on every radio and TV talk show possible — Catholic, Protestant and secular. We'll make sure that millions of Americans learn about Obama's Science Czar.

On top of that, we'll send PRI speakers around the country where they'll sound this alarm to Church groups ... lay organizations ... educators ... Catholic journalists ... and others who can spread the word about what Obama and his Science Czar could have planned for America!

The Population Research Institute has a long track record of putting pro-abortionists in the spotlight and mobilizing public opinion against them. We can and *have* to do it again, *now*. Let me tell you about some of PRI's other enormously successful international battles against abortionists ...

PRI inflicts massive damage on U.N. abortionists

For many years, Congressional pro-lifers were powerless to enforce long-standing laws outlawing U.S. funding of abortion overseas. That's because they had no solid proof that the U.N. was using our tax dollars to kill preborn babies.

So PRI sent specially-trained investigators to dozens of countries in Latin America, Eastern Europe, Asia and Africa. We proved that the U.N. Population Fund was illegally bankrolling vast numbers of abortions with our tax dollars ...

... we interviewed women victimized by U.N. abortionists. We recorded dates, times and places. We

got the names of some of the abortion providers. Then we brought some of the victims to Washington, D.C. where they personally told their stories of U.N. abortion abuse to pro-life Members of Congress.

With this PRI research, Congressional pro-lifers swiftly shut down U.S. funding of the U.N. Population Fund.

In fact, U. N. and other abortion groups have been frozen out of **over \$790 million** of taxpayer funding, thanks to the research PRI provided pro-lifers in Congress.

PRI inflicts major damage on Planned Parenthood

Handing these defeats to U.N. abortionists isn't all that PRI has done to save as many babies as we do. Take a look at some of the *other* major defeats we've given the abortionists ...

When pro-life Members of Congress needed proof that Planned Parenthood was illegally tapping the U.S. treasury to pay for wholesale abortion, Congressional pro-lifers turned to PRI for the facts they needed — and then Congress stripped Planned Parenthood of \$195 million in annual U.S. funding!

Congressman Chris Smith, the heroic legislator who led that successful fight against Planned Parenthood, proclaimed that ...

“Pro-lifers in Congress could not have handed such a *crushing* defeat to Planned Parenthood without the research provided by Steve Mosher and the Population Research Institute!”

And yet there's more to PRI's baby-saving work ...

- We regularly produce powerful pro-life “mini documentaries” and post them on the Internet where they can be seen by millions of people around the world ...

... PRI's Internet videos are so strong that one of our most recent Latin American productions was actually yanked off the Internet by YouTube, the video website visited by millions of people every day! (Intense pressure by pro-lifers forced YouTube to reinstate that explosive PRI “mini-documentary.”)
- PRI is mobilizing pro-lifers against Planned Parenthood's attack on America's tiniest minority — Alaska's Eskimos
- PRI is leading the educational fight against Planned Parenthood's massive abortion assaults on America's blacks and Hispanics
- PRI representatives are often heard and read in Catholic, Protestant and secular media. I have been interviewed by Focus on the Family's *Family News and Focus* ... Janet Parshall ... Fox Business ... EWTN's Raymond Arroyo ... Glenn Beck's program on Fox News ... Drew Mariani on Relevant Radio ... Michael Regan ... *This Rock* ... *Catholic World Report* ...

Catholic Online, and others.

- PRI publishes authoritative bi-monthly print and e-mail newsletters with news, facts and analysis you can't find anywhere else (these newsletters are sent free to PRI supporters)
- And of course PRI representatives are “regulars” on Capitol Hill where we frequently brief pro-life legislators on upcoming abortion battles.

Church leaders enthusiastically support PRI

As I mentioned, the Population Research Institute has the enthusiastic blessing of many renowned Church leaders. See for yourself ...

Omaha Archbishop Elden Curtiss proclaims that the Population Research Institute is ...

“... one of the most important and effective pro-life, pro-family organizations in the U.S. — and perhaps even in the world!”

Cardinal Alfonso Lopez Trujillo says of PRI (Cardinal Trujillo was President of the Pontifical Council for the Family until he was called to his Heavenly reward):

“Those of us who defend the sanctity of human life are *truly* blessed to have PRI leading the battle to defend the unborn and the family.”

And these enthusiastic words of support are from retired Mobile, Alabama **Archbishop Oscar H. Lipscomb** ...

“I ask you to join me in praying ... for the continued success of PRI’s absolutely crucial work in making the world a safer place for babies ...”

Bishop Fabien W. Bruskwitz of Lincoln, Nebraska asks pro-lifers like you to ...

“Please support this group (PRI) with your prayers, each and every day, to save our future — the generation of children that abortion advocates wish to destroy.”

And this unequivocal support is from Jesuit **Father John Hardon**, one of the Church’s greatest theologians (Fr. Hardon was called home by our Lord in 2000):

“Thank God for the Population Research Institute!”

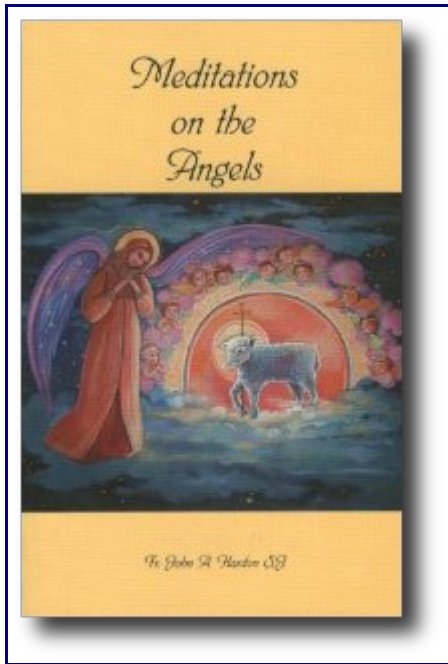

We're counting on your help now

Somehow, someway PRI must raise \$35,000 right now to help alert pro-lifers about Obama's Science Czar and the population control nightmares they could have in store for America. And we rely entirely on the sacrificial gifts of pro-life Catholics like you. So I'm urgently asking for a gift in one of these amounts ...

\$25 \$30 \$35 \$50 \$75 \$100 \$250 \$500 \$1,000

And as I said, I have two very special spiritual thank-you gifts for you. Let me tell you about them ...

Here's your first gift, and it's a spiritual classic!

Like me, you're probably a great admirer of Fr. John Hardon, the holy Jesuit who was perhaps the greatest American theologian of our time. Fr. Hardon was called to his Heavenly reward in 2000, but he left us a gold mine of great Catholic works that will be read, studied and treasured by many generations of Catholics to come.

One of the great treasures Fr. Hardon left us is his classic, *Meditations on the Angels* — and this is the first gift I'd like to send you. Here's a small sample of all that you'll find in Fr. Hardon's fascinating book ...

- What exactly are the angels? (And they're not those fluffy creatures idolized in mass-market paperback books!)
- The 10 important reasons we should meditate on angels (all 10 reasons are fascinating, but there's one reason that's particularly important to those of us who try to lead prayerful lives!)
- How and why some angels are “more equal” than others, along with the roles played by each type of angel.
- Sacred Scripture tells us that the angels “sing” and “praise God in hymns,” but if angels have no bodies and therefore no lips, no mouths and no ears, then how can this be? In *Meditations on*

the Angels, Fr. Hardon answers that question.

- Father also gives us chapter-length insights into the angels at Bethlehem ... the Archangel Raphael ... the Archangel Gabriel announcing the birth of John the Baptist ... Annunciation (three full chapters of Fr. Hardon's wisdom and insight on the angels and the Annunciation) ... the Angels of the Ascension ... St. Peter's angelic deliverance from prison ... and more that's sure to leave you saying, "I didn't know THAT!"
- Plus, all throughout this amazing book, Fr. Hardon gives you prayers that will help you meditate on the angels!

One more thing about Fr. Hardon who wrote this marvelous book:

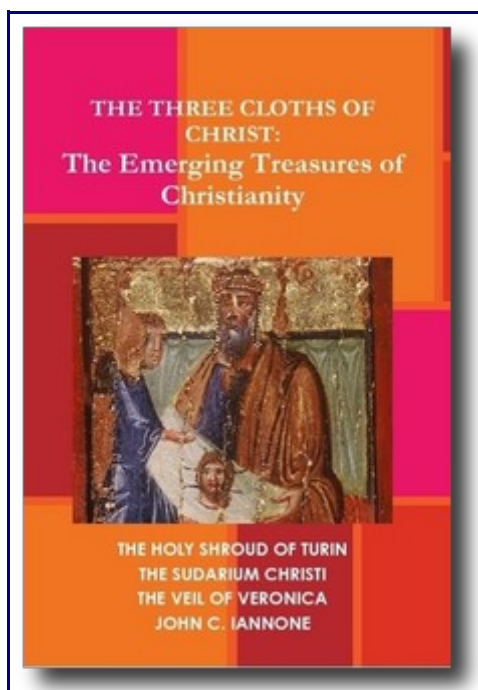

This great and holy priest was one of the dearest friends PRI has ever had. You see it was Fr. Hardon who loudly proclaimed, "Thank God for the Population Research Institute!"

So may I send you a copy of Fr. John Hardon's *Meditations on the Angels* with my sincere thanks for [your much-needed gift](#) of \$35 or more?

And now let me tell you about your *second* gift ...

You'll want this book — it's important Easter season reading!

You see, starting May 2 we'll witness a *massive* new wave of propaganda attacking the authenticity of Christ's burial cloth, the Shroud of Turin.

That's the day the Pope will visit and venerate the Shroud, which went on public display for the first time in ten years on April 10. Already, 1.5 million pilgrims have signed up to view the Shroud.

And you can bet your bottom dollar that Shroud-deniers will pull out all the stops to discredit the Shroud's authenticity.

"It's a fake, a fraud, a forgery," some in the major media will shriek. (*The New York Times* loves to bang the drum about reports that the Shroud is a "fraud.") And a lot of unsuspecting people will be taken in by those lies.

Well, this gift I have for you — a copy of *The Three Cloths of Christ* — will give you all the ammunition you need to demolish the phony claims of the Shroud-deniers! (The author of this highly-authoritative book is noted Shroud expert John C. Ionnone.)

But there's another reason you should have *The Three Cloths of Christ*: It's a book that will grab and hold your attention until the very last page!

Here's a quick peek at what you'll learn when you read this "page-turning" book ...

- Why the Shroud could not possibly have been created in the Middle Ages, as many of the most outspoken Shroud-deniers claim — it's all spelled out for you starting on Page 28 of *The Three Cloths of Christ*.
- Revealed: The amazing "signature" or "fingerprint" on the Shroud proving beyond all doubt that the Shroud's image is that of Jesus Christ. You can go right to Page 50 to learn the fascinating details.
- Could depictions of how Christ was nailed to the cross be glaringly wrong in one significant way? There's no doubt that Christ suffered and died horribly on the cross, but the Shroud reveals that a commonly-depicted, major detail of His crucifixion is wrong! Turn to page 61 of *The Three Cloths of Christ* and you'll learn why.
- Christ's thumbs are not shown on the Shroud, but how and why can that be? The answer is in Chapter Four of *The Three Cloths of Christ*.
- If you'd like to know how the image of Christ was formed on the Shroud, read Chapter Seven.
- What the blood tests from the Shroud reveal about Jesus — you'll find the answers on page 71 of *The Three Cloths of Christ*
- *Plus* you'll find separate chapters loaded with eye-opening information about the Sudarium Christi — the face cloth of Jesus in the tomb — and the Veil of Veronica (Chapters Twelve and Thirteen)
- And *The Three Cloths of Christ* gives you 27 photographs of the Shroud itself and photos directly relating to studies of the Shroud — many of them never-before-seen!

There are 240 fascinating pages in *The Three Cloths of Christ* so I can't begin to tell you all you'll learn when you read this amazing book, but I'll quickly tell you one more thing about it ...

... As the author accurately says, *The Three Cloths of Christ* is “one of the greatest crime scene investigations of all time.” That's because it includes a medical analysis — in terms that laymen can understand — of Christ's wounds and the precise cause of His death. This never-before-revealed analysis is by the late Dr. Robert Bucklin, former Medical Examiner of Los Angeles County. (But be forewarned: This analysis of Christ's wounds and death is NOT pleasant reading. In fact, it adds brand new, horrifying dimension to the words “Christ's suffering and death.”)

So, with the legions of Shroud-deniers gearing up for an all-out attack on the authenticity of Christ's burial cloth — *right now* is the time for you to claim your copy of *The Three Cloths of Christ*!

May I rush it to you today with my thanks for [your much-needed gift](#) of \$50 or more?

Why not let me send you both gifts?

This will make your gift choice easy: Let me send you both *Meditations on the Angels* AND *The Three Cloths of Christ*, with my sincere thanks, for [your much-needed gift](#) of at least \$75.

This is a deadly serious move by Obama

My dear friend, we must not make the mistake of thinking that Obama's appointment of this rabid population-controlling Science Czar is simply a fluke.

Instead, it's part of Obama's deadly pattern. First it was his Freedom of Choice Act, which is actually *worse* than *Roe v. Wade*! Then came Obama's health care program with taxpayer-funded abortion and end of life counseling. And now this!

The press has completely dropped the ball on telling Americans about Obama's top scientific advisor. So it's up to us to sound the alarm before Obama and his Science Czar can put their population control nightmares into action!

Please let me hear from you today with the very largest tax-deductible gift possible! This crucial project — and all our other baby-saving work — depends on you!

When you do, be sure to tell me which — or both — gifts you want to receive.

Yours in Christ,

A handwritten signature in blue ink that reads "Steven W. Mosher". The signature is written in a cursive, flowing style.

Steven W. Mosher
